Invitation

4th Congress on Hypertension and other cardiovascular risk factors in Women

Turku
9.—10.5.2019

Organized by
University Hospital of Turku
and endorsed by
the Finnish Society of Hypertension

Dear Friend!

Welcome to the Hypertension in Women Symposium to be held in Turku, at Radisson Blu Marina Palace Hotel in 9.-10.5.2019.

During two days we will cover two important periods when especially hypertension becomes relevant in women's life: first time during pregnancy when in form of preeclampsia this disorder affects both mother and fetus – and second time during postmenopausal life when hypertension becomes an important risk factor for cardiovascular diseases. We are going to focus both items separately and give an uptodate overview where we stand at the moment.

At the same time we show that there might be connections between these two: is hypertension in pregnancy a risk factor for postmenopausal hypertension and coronary artery disease?

Please return the attached registration form by e-mail to wohta19@gmail.com in your earliest convenience and guarantee your participation in the exceptionally interesting symposium. The first 100 participants can be admitted. There is no registration fee.

Faculty of Medicine of the University of Turku has accepted 9 h for two days (9.-10.5.2019), 3 h for the first day (9.5.2019) and 6 h for the second day (19.5.2019) for specialization in endocrinology, cardiology, internal medicine, obstetrics and gynecology and general medicine.

Greatly welcome !

Risto Kaaja, professor
University Hospital of Turku

Ilkka Kantola, professor
University Hospital of Turku

Any questions: risto.kaaja@utu.fi

Scientific program

9.5.2019 Hypertension during pregnancy

Chairpersons: Hannele Laivuori and Risto Kaaja

16.00-16.45 Short and longterm consequences of pre-eclampsia; Professor David Williams, London, UK

16.45-17.15 Can pre-eclampsia be prevented? Professor Hannele Laivuori, Tampere, Finland

Coffee break, exhibitions

17.45-18.15 Role of thrombophilia in pre-eclampsia, Dr Päivi Galambosi, Helsinki, Finland

18.15-18.45 New insights in pre-eclampsia research, Associate professor Martin Ivarsson, Stockholm, Sweden

Closing remarks: Risto Kaaja

19.30 Dinner cruise with ms Rudolfina (self-financed)

10.5.2019 Postmenopausal hypertension and other CV risk factors

Chairpersons: Risto Kaaja and Päivi Polo

9.00-9.45 State of the art: Is diabetes different in women than in men ?, Professor F Mauvais-Jarvis, New Orleans, USA

9.45-10.15 Are CV risk factors in women present already in youth, Professor Markus Juonala, Turku, Finland

Coffee break, exibitions

10.45-11.15 HRT and cardiovascular risks, Professor Matti J.Tikkanen, Helsinki, Finland

11.15-11.45 Exibitions

12.30 Lunch at Radisson Blue Turku

14.00-14.30 Metabolic syndrome and PCOS in postmenopausal women; Associate prof. Laure Morin-Papunen, Oulu, Finland

14.30-15.00 Metabolic syndrome in women, Professor Risto Kaaja, Turku, Finland

15.00-15.30 Postmenopausal depression and sleep disturbances as CV-risk factors, Professor Päivi Polo, Turku, Finland

15.30-16.00 Coffee break

16.00-16.45 Decreasing CV-risk in women, Professor Timo Strandberg, Helsinki, Finland

Closing remarks: Risto Kaaja

Coffee break, Exibitions

20.00 Dinner at Radisson Blue restaurant
